◎ education

Stanford University (2012 - 2016)   B.S. Computer Science (HCI)   GPA: 3.71

◎ projects

Personal Online Portfolio [njulie.github.io/portfolio]   Aug 2015 - Sept 2015

Self implemented with HTML, CSS, JQuery, and JS. Created mockups and wireframes of the finished product.

Dance Arts Website Redesign   Aug 2015

Independently led project to refine an existing dance studio website and simplify content navigation. Created mockups & wireframes, gained skills in typography & color palettes. See process on njulie.github.io/portfolio.

Personal Website [web.stanford.edu/~jni221]   Jul 2015 - Aug 2015

Created a personal website to showcase technical skills and design capabilities. Self implemented with HTML, CSS, JS, and a touch of JQuery.

Redesign the Commute Experience   May 2015 - Jun 2015

Redesigned the drive experience using autonomous cars. Assisted by a project manager at the Renault Innovation Silicon Valley Center. See process on njulie.github.io/portfolio.

Urban Styles Website [urbanstyles.stanford.edu]   Apr 2015 - Aug 2015

Provided Stanford's student-run contemporary dance group with a website seen by incoming freshmen and potential auditioners. Self implemented with HTML, CSS, JQuery, and JS. Used Keynote to prototype animations. Created mockups and moodboards.

Dv8 Website [njulie.github.io/dv8-website]   Jul 2014 - Sept 2014

Redesign one of Stanford's student-run hip-hop crew's websites seen by incoming freshmen and prospective new auditioners. Self implemented with HTML, CSS, and JS.

◎ work experience

Software Engineering Intern @ *Intuit*   Jun 2015 - Sept 2015

Analyzed 50+ screen scraping scripts for efficiency and method.

Built HTTPClients, gained experience working with REST endpoints and APIs

Art Gallery Assistant @ *Stanford Thomas Welton Art Gallery*   Oct 2013 - Jun 2015

Held open houses and receptions for the student art exhibit on campus.
