Experience

Nutanix / UX Designer - Remote
May 11, 2020 - Present

Working on licensing workflows across multiple SaaS products

Gap Year (Performance Artist) - New York City
Ten months
June 1, 2019 - March 30, 2020

Worked as a tutor at Bespoke Education for five months

Worked as a call center representative for two months at New York City Center, the oldest performing arts theater in Manhattan

Auditioned for and received a contract for SteLi Dance Company

Nutanix / UX Designer - San Jose, CA
Two years and ten months
Aug 28, 2016 - May 30, 2019

Designed products for security, encryption, and storage

Designed a visual tool for network security that allowed IT admins to easily write security policies to secure virtual networks with software within their data centers. Delighted customers to be able to visualize their network traffic in a diagram format rather than in a table.

Designed the user interface for object storage, a storage architecture that allows app developers to store unstructured data. As a result, IT admins and their teams can satisfy use cases for backing up data, archiving data, and passing audits

Education

Stanford University - B.S. Computer Science (HCI track)
2012-2016

Design Tools Used

Sketch
Invision
Abstract
Figma
Miro
Pen and Paper

Skills
